Product Data Sheet

Product Description

Product Name:	ProFlush WBD-223	
Chemical Name:	Cementing Pre-Flush	
Company Name:	ARC Products Inc	
Address:	4010 La Reunion Parkway Suite 160 Dallas, TX 75212	
Telephone Number:	(214) 638-2468	

Product Applications

ProFlush WBD-223 is a powdered pre-flush that was designed to simultaneously wet formation surfaces and help remove water-based drilling muds as preparation for the next step of the cementing process. WBD-223 disperses quickly into water and does not clump or gel, causing no problems during pumping.

ProFlush WBD-223 is pumped ahead of the cement to separate it from water based drilling muds. When pumped ahead of the cement ProFlush WBD-223 will leave downhole surfaces water wet and remove drilling mud residue, which can result in an improvement in quality of the bond between cement, casing, and formation.

ProFlush WBD-223 should be compatible with all water based muds and cement slurries but if uncertian test for compatibility before using the product. ProFlush WBD-223 should be compatible with nonionic and anionic additives.

Typical Properties

Appearance	Tan powder
pH, (neat)	7.0 - 9.0
Density (lbs/ft³)	62.0
Specific gravity	2.10

Storage and Handling

Storage Make sure that partial bags are tightly sealed because the product is slightly hydroscopic.

Handling Use appropriate personal protective equipment when working with ProFlush WBD-223. Do not get into eyes, on skin, ingest or inhale dust generated during the use of the product. Try to prevent the generation

Date: 06/14/2022 Revision: New

Product Data Sheet

of dust during use of the product. Make sure that proper ventilation and eye washes/safety showers are present in the immediate work area. Do not flush product into the sewer system.

Product Performance

Using a 10ppg WBM a series of rinse off and compatibility tests were conducted using ProFlush WBD-223:

ProFlush WBD-223,	Viscosity @ 180°F,	Rinse off @ 180°F,	ProFlush WBD-223,
<u>%w/w</u>	<u>cps</u>	<u>%</u>	lbs per barrel
3.0	2.7	90	10.50
2.0	3.5	99	7.00
1.0		100	3.50

Compatibility and rinse off testing was conducted at a 1:1 ratio of mud to pre-flush solution.

ProFlush WBD-223 was developed in collaboration with Olive & Branch Merchandizing & Distribution LLC.
